25X1C

2. [REDACTED] On 16 July we were advised that a major brush fire was working its way through the antenna field and towards the Base Station receiver building. All available [REDACTED] manpower - both locals and Americans were called to help cut and clear firebreaks around the antenna field and building. [REDACTED] [REDACTED] also sent firefighting equipment to help. Fortunately, "someone was watching over us" and the fire did not travel on to the buildings. The Base reported only coax damage to one Rombic antenna - it is still operational.

25X1A

3. SKYLINK: The [REDACTED] satellite primary ground control system failed 18 July, but soon was back under control using the standby option.

A week's testing [REDACTED] of the [REDACTED] 25X1A
9602 Modem/Codec has been completed. The tests have convinced
us that the modem does not display the maintainability and
reliability characteristics required for the [REDACTED]
[REDACTED] circuit, and does not meet the manufacturer's performance
specifications. The four modems on the [REDACTED] circuit will
be returned to the manufacturer for rework. The circuit will
be activated using Radiation modems operating in the uncoded
mode. Four other modems currently deployed in the Pacific
area will be used as they are until they can be replaced by
the reworked modems.

4. R&D Coordination: We are working with OD&E on
procedures for coordination of OC R&D requirements. A working
draft of a Memorandum of Agreement has been sent to OD&E.

25X1C

25X1C

5. [REDACTED] The low bids received for the Base Station
expansion were \$146,000 for the transmitter site and \$13,972 for
the power house. Both low bidders are acceptable to the [REDACTED]
[REDACTED] A&E firm. Necessary actions to authorize funds
are in the process of being initiated.

25X1A

6. [REDACTED] Preliminary bid information was received
on the construction of the new transmitter building. Low bid
was \$632,789.78 and with a 10% inflation factor cranked in;
the new total is \$696,068.76. Sufficient funds have been
obligated to cover the project.

Planned Activities
